

OzLeisure Traveller episode 4

Jersey Tourism - 18th January 2008

Hosts

Richard Maguire from OzLeisure.com.au in Melbourne, Australia

Guests

Mike Tait, PR Manager for Jersey Tourism

Topics covered

Jersey is one of the Channel Islands which sit between the south coast of the UK and the Normandy coastline of France.

Part of the British Isles, but not actually considered part of the UK, Jersey has excellent links from the UK and continental Europe and is the ideal stopping off point for people travelling around Europe.

The island has the distinctive title of the sunniest part of the British Isles and boasts a distinctive mix of the UK and European lifestyle, with great food of French influence. There is plenty of history to the island including German occupation during WWII as well as plenty of things to see and do for the international traveller of all ages.

Jersey has some wonderful sights to see, many water sports for people to participate in and restaurant and accommodation galore.

Region covered

Jersey is the most southerly of the Channel Islands
