

OzLeisure Traveller episode 9

England's North Country - 20th March 2008

Host

Mike Sussex from OzLeisure.com.au in Melbourne, Australia

Guest

Sir Thomas Ingleby, owner of Ripley Castle, Harrogate, North Yorkshire

General information

England's North Country covers a large part of the mainland UK, and encompasses some of the most famous and well-known cities in the world; with Manchester, Liverpool and York to name but a few ... all famous in their own way for things as diverse as soccer teams, The Beatles and cathedrals.

It's not all cities and large towns though; the north of England has vast wide open spaces and the Lake District to include in its list of things and places to see. With diversity like that, there is something for everyone; young and old alike to experience. Sir Thomas tells us about just a few of the attractions and sights and you will find the URLs to all of them below.

Region covered

England's North Country covers almost half of the UK mainland
